SERENGETI

DRIVEN BY EXPERIENCE

SERENGETI EYEWEAR COLLECTION SS26

WHO WE ARE

Artists. Craftsmen. Builders. Poets. Aficionados. Anti-heroes turned reluctant heroes. We travel the world not for mere curiosity, but to be free and suck out all the marrow that life has to offer. It fuels our fire of creativity, and the tales of our adventures are the stuff of legend. We are true free spirits, rugged individualists, modern creative heroes that are driven to seize the day & **truly make it ours.**

Our Heritage

Serengeti was born in 1982 with a single mission – to deliver the best driving lens in the world. Founded by Corning and with over 140 years of R&D in advanced optics, our revolutionary mineral glass lenses combined polarized, color-enhancing, and photochromic technology in a single lens.

Wrapped in the highest quality hand-crafted frames, Serengeti quickly became synonymous with the freedom of the open road and became the eyewear of choice for Hollywood's rebel creative culture.

Today Serengeti upholds this tradition of craftsmanship, innovation and spirit of pure unabashed freedom, to create what we consider to be nothing less than the...

soul

of

eyewear.

Our Iconic Lens

Our mission was to make the best driving lens in the world, and we ended up making the best lens for,

well,

life.

The Visual Experience

PROPRIETARY TINTS:

Drivers™

Our original high-contrast bronze-based lens tint for many different conditions

PHOTOCHROMIC CATEGORY 2 to 3 **VLT** 18%-11%

555nm™

A gray-green base to ease strain on the eye in medium-bright conditions

PHOTOCHROMIC CATEGORY 3 to 3 **VLT** 15%-10%

Sedona

A rose-based lens to enhance detail in flat light conditions

PHOTOCHROMIC CATEGORY 3 to 3 **VLT** 16%-9%

NEW 2026 Onyx

A warm, color-enhancing gray tint for everyday use in brighter conditions

PHOTOCHROMIC CATEGORY 3 to 3 **VLT** 15%-10%

ALL OF OUR LENSES FEATURE:

- Block Harmful UV + Blue Light to Promote Eye Health
- Available in Prescription
- Optical-Grade Lightweight Mineral Glass or Trivex Material
- Backside Anti-Reflective Coating to Reduce Reflection in the Lenses
- Flash Mirror on Some Tints for Enhanced Glare Protection
- Hydro/Oleophobic Coating for Cleaner, Clearer Vision

20 NEW 26

This is Onyx.

Built For The Bold.

Meet Onyx: forged in fire, literally. Hydrogen-fired and heat-tempered with a flash mirror, Onyx is our new color-enhancing gray tinted lens built for brutal light. The kind that bounces off desert rock, alpine snow, or some godforsaken stretch of sunburnt highway. The photochromic category 3-to-3 goes from dark-to-darker as light conditions change, while the neutral gray tint keeps colors true, sharp, and unflinching. No drama, just what's in front of you, crystal clear and unapologetic.

A warm, color-enhancing gray tint for everyday use in brighter conditions

NEW 2026

The California Collection

A nod to the legends who didn't just wear cool, ***they defined it.*** The ones who chased sunsets in fast cars and never asked permission to follow their own path. Designed in California and handcrafted in Italy, every pair is a collision of West Coast attitude and unapologetic precision. Built from rich acetate and fitted with mineral lenses, these aren't just sunglasses—they're eyewear for the bold, the restless, the originals.

Timeless design
with just the right
amount of edge.

101

NEW 2026

A forgotten classic reborn with attitude, this acetate wrap is for the ones who know exactly who they are. Bold in silhouette, rich in color, and substantial in hand, it's eyewear with backbone. Uncompromising, unmistakable, and true to its own style—just like the people who wear it.

Borrego

NEW 26

The Borrego is more than just eyewear—it's part of the uniform. A frame that favors function, but never at the expense of style. Like a broken-in leather jacket or well-worn ink, the Borrego becomes a part of you—carried for a lifetime, never just worn for the moment.

Borrego Large

NEW 26

Bigger, bolder, and just as uncompromising. The Borrego Large brings the same tough, angular edge as the original—now in a roomier fit. Rebels, Artists, Craftsmen, Vanguards and Trailblazers of all walks of life: their defiant and fierce independence is most purely expressed through one item, their eyewear.

Cambria

NEW 26

Roguishly elegant. Rebelliously intellectual. The Cambria is a round-lensed classic with just enough polish to pass for polite company—but make no mistake, it's got a wild streak. Light on the face, sharp in the details—this is the calling card of the mildly sophisticated, found in dim-lit bars, bookstores, and rooftop parties you weren't supposed to know about.

Idyllwild

NEW 20 26

Function over form, but not by much. Doesn't seek the spotlight but is naturally comfortable under it. Has a youthful mentality but is boldly assertive. With an eye for style but opposed to fast fashion. Inherently thoughtfully provocative, intriguing, and impossible to ignore. Effortlessly stylish and a trend setter by nature.

ACETATE

Arthur

Inspired by American creative icons of years past, the Arthur conjures memories of a time when individual style was a pillar of creative expression. The round lens shape and straight frame lines embody a classic, understated, and intellectual style that tells a story without saying a word. Made with heirloom-quality materials and craftsmanship, Arthur is a piece your grandchildren will fight over.

Delio

The Delio isn't a mere tool to block the sun- when worn, it becomes part of who you are. Crafted from Italian acetate, Delio's iconic square frame isn't just for show; it's a nod to the ageless rebels, the outliers, the ones who live on their own terms. With optically superior mineral glass lenses, Delio delivers a visual clarity that is as sharp as your instincts.

Winona

With a bold acetate front and unexpectedly slim profile from the side, it plays with proportion in all the right ways. Confident, a little unruly, and entirely self-assured. Winona isn't trying too hard. It's the kind of style that looks effortless—because it is.

Amboy

Equal parts free-thinking individualist and contemporary aficionado - Amboy wears its midcentury spirit like a badge of honor. With the iconic teardrop lens shape at its core, the frame is handcrafted with Italian acetate and premium metal details and is paired with our signature mineral 3-in-1 lenses. Amboy isn't just eyewear—it's a symbol of those who live for the journey, not just the destination.

Navigator

NEW 26

From socialites to scoundrels, dirtbags to debutantes—no frame has flown so freely between worlds as the Navigator. With its unmistakable rectangle lenses and iconic double bridge, this is eyewear with history etched into every line. A symbol of pure freedom, equal parts refined and rugged; the Navigator doesn't ask for permission—it just goes. Built for the bold, the restless, and the ones who write their own story, one misadventure at a time.

Navigator Large

NEW 26

From sun-drenched runways to desert highways, this larger take on the iconic silhouette carries the same renegade spirit—just with more presence. The bold rectangular lenses and classic double bridge nod to a legacy of untamed freedom, worn by outsiders, insiders, and everyone in between. It's built for those who live wide open, with a little extra room to make their mark.

Trailblazer

20 NEW 26

A perfect fusion of form and function, it channels the timeless silhouette into something unmistakably bold. Worn by the stylish, the dapper, and the delightfully eccentric, it's a rare breed: classic at heart, rebellious in spirit. Designed for the traditionalist, claimed by the individualist—this is the aviator reimagined for those who honor heritage but never play it safe.

Lupton 2.0

The Lupton 2.0 is an evolution of a classic. This ultra-lightweight rimless frame features a more substantial temple design, with rubber-gripped temple tips and nose pads to ensure a secure fit. This minimalistic frame holds crystal clear, lightweight, impact-resistant lenses. Hitting the open road, helmet on or off, the featherweight design and medium-large fit and lens shape are the closest thing to windshields for your eyes.

Rick

Rick is the slightly smaller companion to our flagship rimless design, Lupton 2.0. It features the same featherweight rubber-gripped temple tips and nose pads, but with a reduced lens size to fit those who want a smaller fit. Like its elder sibling, Rick also features crystal clear, lightweight, impact-resistant lenses.

Winslow 2.0

The Winslow 2.0 is an evolution of its predecessor with a more robust temple design, offering a full-wrap, semi-rimless frame crafted from durable TR-90. The semi-rimless frame features an embedded grip in the temple tips to ensure a reliable fit, making the Winslow 2.0 perfect for those who seek a blend of style, performance, and enduring quality. Now with Trivex lenses.

James

For those who favor the Winslow 2.0 but desire a smaller lens or fit, the James provides a streamlined alternative. This lightweight and sporty semi-rimless frame retains all the design elements of the Winslow 2.0, but is tailored for a smaller, more prescription-friendly fit. With grip-embedded temple tips and nose pads, the James promises a secure hold through any activity. Now with Trivex lenses.
